Feature Research Queue (§11.4.213)

Revision: 1 **Last modified:** 2026-07-28T19:26:22Z

Durable, append-only, NEVER-dropped queue of §11.4.213 FEATURE research-scheduling requests. Each row records the assigned workable-item id, title, research-doc destination, and the timestamp the request was scheduled; the standing autonomous loop (§11.4.87 / §11.4.94 / §11.4.97 / §11.4.103 / §11.4.126) claims and works each item under the §11.4.197 research-completion mandate – never left un-wired.

Item ID	Title	Destination
HXC-159	Fully incorporate the HelixSkills System into HelixCode + HelixAgent (all power-features, Speckit-driven)	docs/research/ fully_incorporate_the_helixskills_system_into_helixcod
