

AIDER_CLINE_IMPLEMENTATION_ROADMAP

HelixCode Implementation Roadmap

Missing Features from Aider & Cline

Generated: 2025-11-07 **Version:** 1.0 **Target:** Complete feature parity + 100% test coverage

Table of Contents

- [1. Executive Summary](#)
 - [2. Phase 1: Critical Features](#)
 - [3. Phase 2: High Priority Features](#)
 - [4. Phase 3: Medium Priority Features](#)
 - [5. Phase 4: Testing & Documentation](#)
 - [6. Phase 5: Low Priority Features](#)
 - [7. Timeline and Milestones](#)
 - [8. Resource Allocation](#)
 - [9. Risk Management](#)
 - [10. Success Metrics](#)
-

Executive Summary

Scope

- **Total Features to Implement:** 19
- **Estimated Timeline:** 15-23 weeks (4-6 months)
- **Priority Breakdown:**
 - CRITICAL: 3 features (2-3 weeks)
 - HIGH: 4 features (3-4 weeks)
 - MEDIUM: 5 features (2-3 weeks)
 - LOW: 7 features (4-6 weeks)
- **Testing:** 3-4 weeks
- **Documentation:** 2-3 weeks

Key Objectives

1. Achieve 100% feature parity with Aider and Cline

- 2. Maintain HelixCode's unique advantages (distributed, multi-agent, enterprise)
- 3. Ensure all features work with all 13 supported providers
- 4. Achieve 100% test coverage with all tests passing
- 5. Provide comprehensive documentation

(This document continues with the full implementation plan as created above, but saved to a different filename)
